Unless a Compromise is Brought About, Which Is Very Improbable, There Will Be a General Walkout Tomorrow—Labor Situation in Other Cities—Chicago Worries.

PHILADELPHIA, July 20.—Unless an unexpected compromise is reached, two thousand bricklayers will quit on Saturday, rather than to accept a cut of five cents.

CHICAGO, July 20.—Mr. Debs and the other leaders of the American Railway Union in custody of the federal officers had another consultation with their attorneys in the marshal's private room yesterday. It lasted several hours. Mr. Debs said emphatically that he and his companions would not ask for habeas corpus or for bail, but that on the contrary they had decided to remain in jail without question until Monday, when the case against them is set for hearing. It is announced that there will be no change in the policy of the union.

The federal grand jury yesterday morning returned "no bills" in the cases of twenty-seven men who were arrested for rioting, and Commissioner Hoynes was ordered to dismiss the charges against them.

The grand jury returned twenty-three indictments yesterday afternoon and was discharged from further service. In the indictments were included the names of about seventy-five individuals, who are charged with violating the federal statutes during the railroad troubles of the last three weeks. The names were withheld.

Railroads in Chicago are still badly crippled and many of the new men are being discharged as incompetent. The A. R. U. officers are confident the old employees will have to be taken back before business can be resumed satisfactorily.

CHICAGO, July 20.—Leading Chicago bankers and merchants joined in a telegram to President Cleveland yesterday requesting that the federal troops be not withdrawn from Chicago. The petition recited that the labor troubles were not yet over, and there was danger of outbreaks and collisions. In the interest of law and order the signers asked that the federal troops be retained in the city.

PERU, Ill., July 20.—After being idle three months 100 of the miners of the Cahill shaft, this city, have decided to go to work, while 500 have decided to stay out, and as a result there may be serious trouble here. There is a home guard here of 100 men armed with repeating rifles who have been sworn in as deputy sheriffs and no violence will be permitted.

BRAZIL, Ind., July 20.—The miners of this district held meetings at the various mines and decided to return to work.

To Retaliate for Arrests.

OMAHA, Neb., July 20.—For contempt of court by interfering with the running of Union Pacific trains or expressing sympathy for those who did dozens of men are being arrested along the Union Pacific in Wyoming. The arrests are causing much feeling in Wyoming against the Union Pacific. Some of those arrested are prominent politicians and citizens, and they threaten to make it warm for the Union Pacific by legislation.

Seven Hundred Sign.

CHICAGO, July 20.—Within twelve hours after an order is issued from the general officers of the Pullman com-

pany it is announced the car works will be reopened. Superintendent Middleton received over 250 applications for work yesterday, which swells the total on his books to nearly 700. According to the assertions of the company's officials in some departments a working force has been enlisted. The leaders of the strikers claim that nothing like a working force can be obtained and that the men who have gone back are all unskilled laborers.

May Settle Strike on the Coast.

SAN FRANCISCO, Cal., July 20.—The strikers at Oakland are excited over a report that Roberts, their local president, has in his possession a telegram from Debs saying the strike might be declared off by a majority vote of the men. It is also reported Debs telegraphs that he has come to an understanding with Pullman. Trains are not yet running with anything like regularity and are still guarded by troops.

Fast Express Wrecked.

ALBANY, N. Y., July 20.—By a misplaced switch at Esperence the fast Chicago express on the Delaware & Hudson railroad was wrecked yesterday afternoon. The engine was turned over and the baggage car was thrown on its side. The rest of the train kept the track. Fireman Palmer was killed and Engineer Austin badly injured. None of the passengers were hurt.

Troops are Sent to Ironwood.

ISHPEMING, Mich., July 20.—The members of Company G, Fifth regiment, remaining here, left last night for Ironwood. Ho Digs His Own Grave.

VALPARAISO, July 20.—Letters received here from Rio Grande do Sul, Brazil, confirm the reports of brutal slaughter of prisoners by both the rebels and the loyal troops. M. Buotte, a French engineer, who was captured by Peixoto's men, was first employed in raising the sunken war ship Aquidaban. He was then made to dig his own grave, after which he was shot by his captors.

Baptist Young People's Union.

TORONTO, Ont., July 20.—Secretary Wilkins says that the Baptist Young People's convention is the largest in the history of the union and the attendance is twice that of the convention held last year at Indianapolis. GROVER SPEAKS OUT FOR THE HOUSE BILL

WILSON MEASURE INDORSED IN HIS LETTER.

The President's Tariff Views as Read to the House Have Aroused Intense Interest—The President's Missive Taken as the Hardest Sort of a Blow at Surrender.

WASHINGTON, July 20.—Intense interest was created by Mr. Wilson's announcement in the house yesterday that he had a letter from President Cleveland, which the latter had permitted to be made public. The letter was then sent to the desk and read, amid profound silence. The letter was in the President's vigorous style, and was a stirring tribute to the Wilson bill, and a direct blow to any surrender to the senate bill. It is as follows:

EXECUTIVE MANSION, WASHINGTON, July 2, 1894. (Personal.) William L. Wilson—My Dear Sir: The certainty that a conference will be ordered between the two houses of congress for the purpose of adjusting differences on the subject of tariff legislation makes it also certain that you will be again called on to do hard service in the cause of tariff reform. My public life has been so closely related to the subject, I have so longed for its accomplishment, and I have so often promised its realization to my fellow-countrymen as a result of their trust and confidence in the democratic party that I hope no excuse is necessary for my earnest appeal to you that in this crisis you strenuously insist upon party honesty and good faith and a sturdy adherence to democratic principles. I believe there are absolutely necessary conditions to the continuation of democratic existence. "I can not rid myself of the feeling that this conference will present the best if not the only hope of the democracy. Indications point to its action as the reliance of those who desire the genuine fruition of democratic effort, the fulfillment of democratic pledges and the redemption of democratic promises to the people. To reconcile differences in the details compromised within the fixed and well-defined lines of principle will not be the sole task of the conference; but, as it seems to me, its members will also have in charge the question whether democratic principles themselves are to be saved or abandoned.

"There is no mistaking or misapprehending the feeling and the temper of the rank and file of the democracy. They are downcast under the assertion that their party fails in ability to manage the government and they are apprehensive that efforts to bring about tariff reform may fail; but they are much more downcast and apprehensive in their fear that democratic principles may be surrendered in these circumstances they can not do otherwise than to look with confidence to you and those who with you have patriotically and sincerely championed the cause of tariff reform within the democratic lines and guided by democratic principles.

The confidence is vastly augmented by the action under your leadership of the house of representatives upon the bill now pending. Every true democrat and every sincere tariff reformer knows that this bill in its present form, and as it will be submitted to the conference, falls far short of the consummation for which we have long labored, for which we have suffered defeat without discouragement; which in its anticipation, gave us a rallying cry in our day of triumph, and which, in its promise of accomplishment, is so interwoven with democratic pledges and democratic success that our abandonment of the cause or the principles upon which it rests means party perjury and party dishonor.

One topic will be submitted to the conference which embodies democratic principles so directly that it can not be compromised. We have in our platforms and in every way possible declared in favor of the free importation of raw materials. We have again and again promised that this should be accorded to our people and our manufacturers as soon as the democratic party was invested with power to determine the tariff policy of the country. The party now has that power. We are as certain to-day as we have ever been of the great benefit that would accrue to the country from the inauguration of this policy, and nothing has occurred to release us from our obligation to secure this advantage to our people.

GROVER CLEVELAND.

Four Men Injured by the Blowing Out of a Converter at Homestead.

PITTSBURG, Pa., July 20.—The bottom of a converter at the Homestead Steel works of Carnegie & Co. at Homestead blew out at 10:30 o'clock to-day, scattering 3,500 pounds of molten metal in every direction. Four workmen who were in the pit were terribly burned, two of them fatally. Their names are: Peter Nelson, burned all over the body; will die. Timothy Diamond, terribly burned about head and breast; will die. Michael Holleran, dangerously burned. William Davis, head and face burned; will recover.

FIRE COST SOAP MEN A PLUMP \$50,000

ENOCH MORGAN'S SONS' FAC- TORY ALMOST DESTROYED.

Fire Early This Morning Swept the Plant—Big Flour City Blaze—Central Market in Minneapolis Has a Serious Conflagration—A Catholic Church Destroyed.

NEW YORK, July 20.—Enoch Morgan's soap factory was damaged to the extent of fifty thousand dollars by fire this morning.

MINNEAPOLIS, Minn., July 20.—The most serious fire of the year in Minneapolis and the largest in the history of the city broke out about 9 o'clock last night and before it was extinguished had destroyed property to the value of over \$500,000, leaving in ruins one of the finest market buildings in the country. The origin has not been learned, but the fire broke out in the commission house of Dodsworth & Drew, located in the center of the New Central market building, which was bounded by Second and Third avenues North and Sixth and Seventh streets, covering an entire block. The building was owned by the New Market company, and was erected at a cost of \$250,000 and opened about the time of the republican national convention in 1892. It had a frontage and depth on one side of 320 feet and on the rear and opposite side was 100 feet wide, being four and five stories high and built of pressed brick. In addition to its purposes as a market it was used by fifty commission merchants, 188 stands and 200 market gardeners. The structure was entirely destroyed, involving a loss, including the original cost and the value of the stocks contained therein, of \$475,000. Thirty horses and thousands of fowls were burned. The fire spread to the lively stable, store and residence of S. B. Matson and the residence of Dell Matson and G. B. Howard, which were destroyed, and a number of other business and private dwellings were damaged. A gas report stood in the center of the threatened district containing 100,000 feet of gas and for nearly two hours an explosion which would possibly have wrecked the business center of the city, was feared. Fortunately this catastrophe was averted. Several firemen and horses of the fire department were prostrated by shocks from falling electric wires.

The only fatality resulting from the fire was the death of Myron Finley, a lineman for the General Electric company. He was handling some wires after the fire was nearly out when he caught hold of a telegraph wire which became crossed with an electric light wire. The result was almost instant death.

Fire at 11 o'clock in the morning completely gutted St. Clotilde's French Catholic church at Dyndale and Eleventh avenue north. The church was a large structure of solid brick, and was elegantly furnished and frescoed. Only the four walls were left standing, and the loss is estimated at from \$17,000 to \$19,000. It was insured for \$45,000. The fire is supposed to have originated from a lamp left burning on the altar.

HOUSE TO STAND BY WILSON.

Refuses to Recede From Its Position—The Senate Conference Scored.

WASHINGTON, July 20.—House democrats, without a division of sentiment, so far as surface indications were concerned, and amid a scene of unparalleled enthusiasm, sent the tariff bill back to conference yesterday with instructions to the conferees to stand firm against the amendments which the senate placed upon the bill. A special order was brought in from the committee on rules which limited the debate on the motion to disagree to two hours, and was so worded as to prevent specific instruction on sugar or any other particular schedule. Debate was practically confined to Chairman Wilson, on the one hand, and Ex-Speaker Reed on the other, although short speeches were made by Gen. Wheeler of Alabama and Ex-Speaker Grow of Pennsylvania. Before the vote was taken Mr. Wheeler sent to the clerk's desk and had read a letter from President Cleveland declaring that the future welfare of the democratic party depended upon the adherence of the democratic principles upon which the house bill was framed. The motion to disagree was adopted without division and the speaker reappointed the old conferees.

The house galleries were crowded and the scene on the floor was an animated one when Chairman Wilson entered the room. There were no preliminaries. As soon as the reading of the journal had been completed Mr. Outwaite of Ohio from the committee on rules offered the following resolution, under which two hours were to be allowed to debate the conference report on the tariff bill:

Resolved, That after the adoption of this resolution it shall be in order when the house conferees on house resolution 1864 (the tariff bill) make a report of disagreement to move that the house insist upon its disagreement to the senate amendments to said bill in gross and ask a further conference with the senate on the disagreement votes of the two houses thereon. That two hours of debate shall be allowed upon said motion and then without other motion the vote shall be taken thereon. Should such motion prevail

the speaker shall at once appoint the house conferees and the matter shall then, for the time being, pass from the consideration of the house.

Mr. Hopkins attempted to offer an amendment to extend the time to four hours, but objection was made. The previous question was ordered. This gave thirty minutes for debate.

Mr. Reed took the floor and offered a word of protest against cutting off debate in this summary manner. He thought there were members on the democratic side who desired time to express their opinion of the senate amendments.

Mr. Reed yielded ten minutes to Mr. Johnson, the free trade single taxer from Ohio. Mr. Johnson immediately launched a protest against the special order, because it gave the house no opportunity to vote separate instructions on the different schedules, and especially on the subject of sugar. He declared he should vote against the bill.

Mr. Reed said the proposed action would give the house no opportunity to express its opinion on the vital points of difference between the house and the senate, but would mingle all the differences together without giving to the vital points any particular strength or emphasis.

Mr. Outwaite, on behalf of the committee on rules, replied to Mr. Reed. The constitution of the United States, he said, imposed upon the house the duty of preparing a revenue bill. It is its duty to say now whether at this time the conferees shall adhere to their position. He evoked a burst of applause when he declared that the adoption of the pending resolution would be an instruction to the conferees not to recede from the position the democrats of the house took when they passed the Wilson bill.

Mr. Reed closed the debate for the republicans. Without further ado the vote was then taken on the adoption of the special order, and it was agreed to without division.

Immediately after the adoption of the rule the speaker recognized Chairman Wilson. He was greeted with the most unbounded enthusiasm on the democratic side—enthusiasm in which the crowded galleries joined, and in clear, ringing tones he delivered his speech in support of the position taken by the house conferees against the senate amendments. He then sent to the clerk's desk and had read the letter from President Cleveland, published elsewhere.

At the conclusion of the reading of the President's letter Mr. Reed, the leader of the minority, arose. For almost a minute the cheers and shouts of his political colleagues rang out. He outlined the opposition of the republican minority to the bill in a brilliant speech.

Mr. Reed then yielded a minute to Mr. Wheeler (dem., Ala.), who congratulated the house on the firm position the conferees had taken against the encroachment of the senate. He was followed by Mr. Grow (rep., Pa.), who pointed out what he considered the inconsistencies of the democratic position.

At 1:40 the resolution to further insist on the disagreement to the senate amendments was agreed to without division. The speaker then reapointed the former conferees on the part of the house and the regular order was taken up. The excitement in the house quickly subsided and the routine business was proceeded with. At 5 o'clock the house adjourned.

REPORT IN THE SENATE.

To Be Considered To-day—Hill to Move to Free List Coal and Iron.

WASHINGTON, July 20.—The senate yesterday agreed to the conference report on the diplomatic and consular appropriation bill. Mr. Voorhees, the senate manager of the conference on the tariff bill, rising to a privileged question, asked that the house message on the tariff bill be laid before the senate. Having consulted with gentlemen on both sides, he said, he should ask to have the bill to lay on the table, to be taken up for consideration immediately after the reading of the journal.

Mr. Hill thereupon gave notice that at that time he should move to instruct the conferees to place coal and iron on the free list and that he would at the same time submit some remarks on the question.

When the tariff bill had thus been disposed of the Indian appropriation bill was taken up. Some unimportant amendments were made and the bill was then passed.

At 5:33 p. m. the senate went into executive session and shortly thereafter adjourned.

What the Income Tax Would Yield.

WASHINGTON, July 20.—Senator Hill has received a long letter from Worthington G. Ford, chief of the bureau of statistics, in which he states that the possibilities of the revenue that can be raised from the income tax range all the way from \$12,000,000 to \$39,000,000. He thinks the latter figure is the highest which can possibly be hoped for and the last few years the collections would fall below \$15,000,000. He also expresses the opinion that the revenue which will be collected on private incomes will not be more than sufficient to pay for collection.

Pass Naval and Military Bills.

WASHINGTON, July 20.—After the disposition of the tariff conference matter in the house yesterday the conference report on the naval appropriation bill was agreed to—156 to 47. The conference report on the military appropriation bill was agreed to—155 to 15.

NOTHING BUT SOUP FOR THE VIGILANT

BRITANNIA PROVES FASTER ON ENGLISH COURSES.

Today the American Yacht Was Beaten By One Minute and Fifty-seven Seconds—Alterations Have Made Her Faster But Not Quite Fast Enough.

LONDON, July 20.—The cutter Britannia won over the Vigilant again today. Her margin was one minute, fifty-seven seconds. The change in the Vigilant's rig has improved her running on the tortuous English courses but she is still too slow for the Prince of Wales' cutter. Good judges say that she can beat Britannia by two minutes over the New York course.

TO IMPEACH OLNEY.

Milwaukee Unionists Will Send a Petition to Congress.

MILWAUKEE, Wis., July 20.—The latest move of Milwaukee labor men is a petition to congress demanding the impeachment of Attorney-General Olney. The petition is being generally signed by the members of the Knights of Labor and other labor unions. Last night there were over 800 signatures to the document. It calls the attention of congress to the acts of the attorney-general, which are characterized as outrageous. Besides the petition there is a long memorial to congress which charges Attorney-General Olney with upholding Pullman in his determination not to come to terms with the men; with counseling the introduction of United States regulars into Illinois; with arresting citizens on unheard-of process; with misinterpreting the interstate commerce law and ignoring the P.N.E.I. arbitration law. As soon as all of the men belonging to labor organizations in this city are given an opportunity to sign the petition it will be forwarded to Washington. It is expected several thousand names will be attached to it.

CHEYENNE, Wyo., July 20.—A petition to congress praying for the impeachment of Attorney-General Olney was signed yesterday by every member of the American Railway Union here, and will now be circulated among the citizens by a committee from the union. All other local branches throughout the country are taking similar action.

Holt From Indiana Federation.

PERU, Ind., July 20.—The closing day's session of the Indiana Federation of Labor and Trade Unions in this city yesterday developed some bitterness. The labor union delegates of this city, Indianapolis, and other points withdrew from the hall and federation, giving as their reasons that the constitution prohibited political action, and that after the action regarding running Eugene Debs for governor they considered it their duty to withdraw entirely. Officers elected are: President, Joseph F. Suchenok of South Bend; vice-presidents, one from each congressional district; secretary-treasurer, J. May of Logansport. The next place of meeting is Fort Wayne. Chairman of the legislative committee is W. Perkins of Indianapolis.

POLITICS IN THE NATIONAL GUARD

Party Favorism the Cause of the Trouble at Racine.

Militiamen about the state a much wrought up over the mustering out of the Racine Light Guard and the cause of such hasty action is now attributed by some friends of the guards to a political preferment. It is known that a company stands waiting at Waukesha to be mustered in as soon as the Light Guards go out and as the complement is full there has been no place for them. The leading members of the Waukesha company are said to be the sons of influential democrats, while the Racine boys are only plain, every day American citizens, with a republican for a captain. This, together with the underhand work by some of the enemies of the leading officers of Light Guards, is assigned as the true reason.

FARMERS BEGIN THRESHING
THIS WEEK.

Much of the Grain Was Cut But Not Stacked, Being Left in the Shock Until Needed—Edgerton Ball Players Beat Milton—Crops Injured By the Drouth.

SHOPPIERS, July 20.—Mr. Burnham from Janesville has rented the new store in this place and will put in a general stock of goods soon. He also rented the Stewart house and is moving in. Miss Alice Smith gave a lawn party on Wednesday evening to a number of her friends. They report a fine time. George Culver's wife and daughters arrived here on Saturday from Dakota and expect to make this place their home. The dry, hot weather makes it very inconvenient for some of the prairie farmers. They have to draw water from the Turtle Creek for their stock. Grain will be cut and in the shock by the last of the week, and some threshed out, as some are getting ready to thresh from the shock. Mrs. Nickels, of Minnesota, mother of Mrs. Weirick, is visiting this place for a short time. Mrs. Clarence Van Gilder, from Janesville, is visiting her parents, Mr. and Mrs. Currier, of this place. Tom Earl lost a big fat hog Wednesday, from the heat. Thermometers at 105 degrees above settled the porker. James Scott lost two the same way.

MILTON CLUB PLAYED GOOD BALL.

Couldn't Quite Get Away With Edgerton Champions, However.

MILTON, July 20.—The Blue Diamonds and Edgerton clubs played a good game here Wednesday forenoon, the score being 20 to 17 in favor of Edgerton. The Diamonds led until near the end of the game and three balls were needed to finish it. Greene, the Milton catcher, and Holmes, the first base, were both injured and had to leave their positions, which was a disadvantage to the Diamonds. Larson of Janesville, did the pitching for Edgerton. W. B. Anderson of Lake Mills, was here to attend the funeral of his brother's daughter last Tuesday. It was 96 to 98 degrees above in the shade here on Tuesday. Mrs. S. Z. Hurlburt of Chicago, is visiting her Milton friends this week. Mrs. Post is having the house occupied by D. Williams painted. Mrs. H. A. Randolph has gone to Stoughton to take treatment from Dr. Hyland. The following are the new officers of the bank of Milton: A. S. Maxson, president; E. Crandall, vice president; P. M. Green, cashier; E. B. Saunders, assistant cashier. The ladies of the M. E. church served ice cream Tuesday evening, for sweet charity. Robert Skinner is back from Darlington, and is again officiating as night operator at this station. On Wednesday evening the Junior C. E. of the Congregational church enjoyed a ten cent supper on George Bacon's lawn. Threshing machines began operations here this week, and are pounding out barley, rye and winter wheat. Miss Davis, of Janesville, has been the guest of friends here. Jesse Green, of Albion, was a visitor here this week. W. C. Allen and wife have moved back to Albion. Professor Kipp and wife have been the guests of S. H. Coon and family. Rev. E. M. Dunn occupies the pulpit of the Congregational church at Whitewater tomorrow. Mrs. Yates, of St. Paul, is visiting Mr. and Mrs. I. A. Sowle. Mrs. Frank L. Bond, of Iron River, Mich., was the guest of Mr. and Mrs. E. B. Saunders this week. Thos. Spence, of Waukesha, has taken charge of the Telephone and employs a compositor to run it.

BRIEF BITS FROM LIMA CENTER.

Coming and Going of Village Folk—New Man at the Depot.

LIMA CENTER, July 20.—Clarence Johnson, of Milton Junction, is spending the week with Lima friends. Mr. Shertel, of Palmyra, runs the depot in the absence of Mr. Parker. A. O. Hall and wife, of Chicago, visited Mrs. Aimes Gould last Wednesday. Mrs. Gould is Mrs. Hall's sister. Grant Burhan of Elkhorn, made a trip on his wheel last Saturday, calling on friends in this community and on the next day returned home. The United Brethren social held on Anderson's lawn last Wednesday evening was well attended and was a success financially. Mrs. George Fuller and daughter Edna are visiting Millard and Elkhorn friends. Mr. Reese and family drove to Fulton Friday evening and returned home the next day. Mr. Anderson started Thursday morning for a trip in the northern part of the state, and will visit friends at Augusta on his return. Mr. Parker, wife and daughter took a trip to the Dells last Thursday, returning Friday. Mrs. Chapman's daughter and children of Janesville, visited here the first of the week. EVANSVILLE ATTORNEY IS MARRIED.

R. M. Richmond Brings Back a Bride From La Porte, Indiana.

EVANSVILLE, July 20.—Cards have been received from La Porte, Ind., announcing the marriage of Robert M. Richmond and Lona Washburn. The groom is a member of the law firm of Richmond & Smith, and during his short residence in Evansville he has won many friends who unitedly

tender their congratulations. Mr. Van Bennett of Kansas, assisted by the "Bells" gave two very interesting entertainments here last Saturday and Sunday nights. Two of the "Bells," Miss Kitty Clark and Peter Stair are residents of Evansville, and the extra hearty welcome accorded them showed not only our appreciation of their musical gifts, but our approval of them from every standpoint. To find the hardest worked men in town just now, call on Fellows & Son. Still they don't complain, as they, like all machine men, like hard work. Editor William Lawton and Dr. George F. Spencer, made a business trip to Edgerton last night. Charles Smith and wife, of Fairmont, Minnesota, are visiting their nephew, M. J. Fisher. Mr. Smith came to Rock county in 1846, and after a twenty-one year residence in Rock and Dane counties, he removed to southern Minnesota, where he has since resided.

FAIRFIELD HARVEST UNDER WAY

FAIRFIELD, July 20.—C. Dykeman is visiting his daughter, Mrs. Marion Smith, near Riceville, Iowa. Rev. Mr. Reynolds of Clinton, preached an interesting discourse at the quarterly meeting service last Sunday afternoon. The harvest is rushing the farmers these days. The barley is all in shock and some have finished cutting oats. The steam threshers will boom next week. Mrs. Agnes Clows has been quite ill, but is better at present writing. Mrs. Margaret McElay of Janesville, has been a guest at Robert More's the past week. Miss Elma Cutter is visiting friends at North Johnstown. The thermometers registered 105 degrees in the shade Wednesday and neither man or beast could find a cool place. C. H. Serl and son Elmer of Delavan, were callers in this vicinity this week. Miss Katie Clows of Chicago, is visiting relatives at this place. Many from here attended the funeral of Mrs. B. T. White, wife of our beloved pastor, at Allen Grove, last Wednesday morning. She endeared herself to the parish during the last three years, and all deeply sympathize with Rev. Mr. White and daughter Ida in their affliction.

RAIN BROUGHT LOSS BUT GREATER GAIN

A. J. HINDES' HOME STRUCK
BY LIGHTNING.

Bolt Went From Roof to Cellar Without Arousing the Family—Grain That Wasn't Stacked Got a Soaking—Loss of Live Stock From Heat Is Reported.

Damage was done by last night's storm, but the good was incalculably greater. The good extended throughout the country, while the loss was confined to one or two spots. A good many farmers were caught with grain cut but not stacked. A. J. Hindes was also one of the sufferers. His new residence on Milton avenue, near St. Mary's avenue, was struck by lightning. The electric bolt first struck the roof, tearing off a number of shingles, and passed down through the building to the basement, leaving the house in a badly wrecked condition. The rafters on the back part of the roof were splintered into kindling wood, studding and plastering were wrecked in the lower rooms, door panels split and burned, crockery demolished, and in fact, portions of the dwelling and contents were left in a chaotic condition. The lightning played a number of unique pranks. In one room holes were pierced through a number of articles not unlike an auger hole, and traces of a serpentine shape were noticeable in many places where the bolt had scorched the building. One of the sills was splintered, and a hole was pierced through a heavy stone, as the bolt passed to the ground. Mr. Hindes and his daughter occupy the house, and were not aware of the lightning's visit until this morning. Judge Bennett, who lives near by, saw the bolt when it descended, but did not realize that a building had been struck, although the flash was blinding. The report of the thunder following instantly after the flash.

Rock county has been shivering and broiling for a month. The hottest kind of hot weather has added to the terrors of the drouth. Corn, oats and potatoes have suffered most but pastures are parched and thin.

Losses of live stock from the heat have been reported in some cases. Tom Earle, of Shopiere, lost one fat hog from the heat and James Scott, of Shopiere, lost two.

The heavy flood of water flowing down West Milwaukee street last night, wrecked the new crosswalk just constructed at River street. The water getting under the new laid cedar blocks, caused them to rise up a foot or more, the sand and gravel getting underneath and holding the blocks out of place. The walk was taken up and relaid this morning.

HARPER'S HISTORY OF THE WAR

Harper's Pictorial History is universally recognized as the best history of the war yet published. This superb work has never been sold for less than \$16 to \$30. It has been sold only by subscription and but a very few men have been able to buy it.

The pages are the same size as Harper's Weekly and the work contains all the illustrations appearing in that great paper during the war. The work was edited by Richard Grant White and Henry M. Alden and is authentic, complete and reliable.

We have made arrangements whereby we can furnish Gazette subscribers with this splendid history of twenty-six parts at ten cents a part. These twenty-six parts will contain over one thousand war pictures and will make two handsome volumes when bound.

Many official documents of priceless historic value are quoted in full in the copious foot notes, such for instance as Lincoln's inauguration speeches, articles of federation of the early states, constitution of the United States, ordinance of secession, and many important papers, speeches, etc. The war story is consecutive and very fascinating. The introductory chapters, leading up to the struggle, and the chapter on the reconstruction period, are by some of the first writers of the age.

HOPE FOR THE HAIRLESS.

Professor Birkholz, of Chicago, Gives Hope to Those Afflicted with Baldness—A "No Cure, No Pay" Treatment.

Professor G. Birkholz, of Chicago, the eminent German specialist, who for years has devoted his time and talent to the study of the hair follicles, and who has evolved the most successful treatment for baldness the world has ever known.

He will carefully examine each case and candidly inform the inquirer whether his baldness can be cured and the hair be restored. These examinations are made without charge.

In all cases where there are any hair follicles remaining undestroyed by age or disease the professor will undertake a cure, and if he does not effect a restoration of the hair he will ask no pay.

The remedy is an important one, and the treatment given by the professor is his own, and cures where all others fail. If your case has been pronounced incurable do not take it as a final answer until you have seen Professor Birkholz and received his opinion.

Many persons have small bald spots through the hair. These increase in area and in time produce baldness. In such cases the hair follicles need nourishment. Prompt treatment will bring them into activity and restore the hair.

The success that has attended Professor Birkholz everywhere enables him to give a positive opinion in each case presented to him. Those who are bald or are threatened with baldness should not delay treatment, but call upon the professor at once. 1011 Masonic Temple Chicago.

Hand this notice to any first-class drug gist and he will get the remedy for you at once, if he has not got it in stock.

Far From the Madding Crowd.

This what many a nervous sufferer wishes himself every day. But there will soon be no necessity to forsake the busy—albeit somewhat noisy—scenes of metropolitan life, if the nervous invalid will begin, and persist in the use of Hostetter's Stomach Bitters, which will speedily bring relief to a weak and overstrung nervous system. Day by day the body acquires vigor through the influence of this reliable tonic, and in the vitality which it diffuses through the system the nerves conspicuously share. Sleep, appetite, digestion—all these are promoted by this popular invigorant, and if they are, who can doubt that the acquisition of health and nerve quietude will be speedy and complete? Constipation, biliousness, malaria, nausea, sea sickness and cramps in the stomach yield to this remedy.

CONGRESSIONAL CONVENTION.

A republican convention for the First congressional district of Wisconsin will be held at the city hall in the city of Racine, Tuesday, July 24, 1894, at 10 o'clock a. m., for the purpose of placing in nomination a candidate for congress, electing a congressional committee and the transacting of any other business that may properly come before the convention.

The several counties in the district will be entitled to representation by delegates as follows: Green, 5; Kenosha, 3; La Fayette, 5; Racine, 8; Rock, 12; Walworth, 8. L. H. PARKER, Chairman Republican Congressional Com. Beloit, Wis., June 14, 1894.

In the last congressional election the vote in Utah was democratic 15,211; republican 12,405, and liberal 6,959. If the democrats could do no better than that in the year of the democratic tidal wave there is every reason to believe that the new state will go republican at its first election, and that its two senators, with others to be elected in other states, will restore the control of the senate to the republicans in the Fifty-fourth congress. The people of the entire country will see to it next November that the control of the house shall also be restored to the republicans, the presidency coming two years later.

POISON IVY.
 The susceptibility of certain persons to ivy poison is one of the curious eccentricities of the human system that the medical profession frequently has to encounter. Many persons are not in the least affected by it, while others can not go anywhere in its vicinity without feeling the injurious effects. One instance of extreme susceptibility is given where a brushpile was burning when a stranger, passing by, was poisoned by the floating smoke and broke out in rash with violent itching all over the face and hands. In another case some old stakes and rubbish that had been left on a brushpile for years were removed, when the laborer was severely attacked with this difficulty, the eyes being almost closed from the swelling of the face. This poison is somewhat eccentric in its action, and its victims never know just what course it may take. It sometimes makes its appearance on one arm or one ankle, and may appear in several succeeding years at about the same date. Sometimes it is a permanent tenant, breaking out all over the body whenever the system has been overheated. Again, it will form tiny specks just under the skin, and after a few days showing a small, red middle and a slightly raised rim, which comes off and brings the little hard speck with it. The itching is almost intolerable, and nothing yet invented or discovered by medical science is able to afford relief.

Very Simple.

PRISON AND DEATH AHEAD OF FORBES

PICKPOCKET DECIDED TODAY TO PLEAD GUILTY.

Rock River to Be Stocked With Bass.
Street Car Party and Lawn Socials.
Funeral of Frank Maine—Rev. Mr. Wildermuth to Move—Hoard In Town.

THOMAS J. FORBES, who has been confined in the Rock county jail since April 27, has tired of the life in a county bastille, and to-day decided to be taken before the judge, enter a plea of guilty and take his chances on the term in Waupun, which confronts him in any event. Forbes was arrested during the Grand Army encampment, charged with picking the pockets of Charles Schrader, of Milton, obtaining valuable papers and money. He took a change of venue from the municipal court, thinking that he would stand a better chance for liberty in the circuit court. It is claimed that Forbes has a short lease of life; that he is a victim of consumption, and is gradually wasting away.

SCHOOL BONDS GOOD AS GOLD DOLLARS

LOCAL BANKERS SATISFIED OF THEIR LEGALITY.

Attorney Morse Believed to Have Had Little Experience in City Bond Matters—Clerk John Cunningham Says the Field of His Argument Has Been Covered Before.

Local bankers laugh at the idea that the school bonds are illegal. C. S. Jackman spent yesterday in Chicago looking into the situation. After talking things over with the Illinois Trust & Savings Co. attorney he returned with his faith in the legality of the issue stronger than ever. It is understood that Attorney Morse, while a very good lawyer, has had but little experience with bonds.

It is intimated that the Chicago bank's bid for the bonds was higher than the market justified. If this be the case the question about state law and special charters may have been raised as a means of getting out of the bargain. Assistant Cashier Chappell, however, says the bank wants the bonds and will take them at the price specified if all doubts are set at rest and if the bond market doesn't go down in the meantime.

"There ought to have been a forfeit exacted when the bid was accepted," said one local attorney this morning. "Then the burden of proof would have been on the bank instead of the city."

Attorney John Cunningham, clerk of the school board was seen this morning, and was asked what he thought of the Chicago man's opinion. "I do not take much stock in it," he said. "We have been all over that ground and are satisfied that the issue is all right. I believe the board can dispose of the bonds in twenty-four hours, if they had the disposal in their hands."

"At the same premium offered by the Illinois Trust and Savings bank," queried the reporter.

"I don't know as to that; but am satisfied that the bonds can be readily floated, regardless of the Chicago opinion."

CHECK SWINDLERS COME THIS WAY

Chief Acheson Warned to Keep Watch of Trains From Rockford.

Janesville business men will do well to be on their guard when cashing checks, especially when presented by strangers. A gang of check swindlers have been working Rockford merchants very successfully. Last evening the chief of police of that city telephoned Chief Acheson to look out for several strangers who had left that city after working the check game on a number of merchants. The Rockford crooks represented themselves as laboring men who had received the check in payment for work. These checks were signed by prominent and well-to-do Rockford men. In most cases some small articles were purchased of the merchant, the check being presented in payment, the crook receiving the balance in cash.

"I don't believe they will come here," said Chief Acheson this morning. "Janesville at this time would not be a good field for them to work such a racket on the merchants. I guess all our business men are on the watch for them now. It would take a slick one, for instance, to work 'Rosey' just at present."

MEAT DEALERS UNDER ARREST

Three Milton Men Called to Account for Not Having a License.

W. E. Vanlume, William Walrath and Harrod Jackson, of Milton, will appear before Judge Phelps on August 3, and show cause, if they can, why they should not pay the penalty for selling meat without a state license. These gentlemen have been served with summons and the time for hearing set as above. It is charged that Vanlume, Walrath and Jackson operate a butcher shop in Milton, and that they go about the country with teams and wagons selling out meat, and are therefore liable under the license law, they not having taken out a peddler's license as provided by the statutes.

EXPENSES OF THE ASHTON CASE

Personal Representatives of the Dead Man Liable for Nurses' Pay.

In compliance with a resolution adopted at the last meeting of the Dane county board instructing the district attorney to look up the law as to the liabilities of the county for the expenses incurred on behalf of Matthew Ashton, the small pox patient who died in the county jail last February, District Attorney Leary has filed an opinion stating that the personal representatives of Ashton are liable for the pay of the nurses and other necessities and that the city of Madison is liable for the clothing of the nurses and the disinfecting of the jail.—The Madisonian.

An Awkward Mistake.

Citizen—If there is anything I hate, it's a little bit of a village where the shopkeepers spend half the time loafing around outside waiting for customers.

Friend—What's the objection?

"I took a house for the summer in a place like that, and moved there yesterday. In the afternoon I went out for provisions, and, seeing a man standing in the doorway of a small grocery, I told him I would like to see his hams."

"Well?"

"He wasn't the grocer. He was the manager of a traveling minstrel show."

The man was losing every game at cards and the lady on the other side of the table was laughing at him. "Ah, well," she said, in sarcastic sympathy, when he had to buy another basket of chips; "unlucky at cards, lucky at love, you know."

He Ate to Save His Friend.

A man was being tried for hog stealing in a southwest Georgia justice court. He had an accomplice in the theft, to whom the judge said:

"You knew this fellow stole that hog?"

"I did, your honor; but he was a sickly man, an' he'd ha' eat that whole hog he'd ha' died certain!"—Atlanta Constitution.

BEVENS HEIRS SUE FOR THE \$25,000

WILL CASE BEFORE JUDGE BENNETT TODAY.

Estate Which Involves \$12,400 Worth of Real Estate and \$12,655 Worth of Personal Property Is To Be Divided Among Four Children and The Widow.

The case of Bevens against Bevens now in circuit court, concerns the construction of a will and the disposition of a \$25,000 estate. Joseph Bevens, a wealthy farmer of Milton, died March 8, 1893. His estate is almost equally divided between real and personal property, the real estate being valued at \$12,400 and the personal at \$12,655. Besides his widow Mr. Bevens left four surviving children. He also left a will distributing his property among his family, widow and children, but the will is encumbered with many ambiguities, making it very difficult to construe. Orrin N. Bevens is the executor. The will has been duly admitted to probate and the present action is brought simply for the court to construe the several provisions. In making the will Mr. Bevens failed to dispose of all the personal property, and also in bequeathing to his wife he failed to particularize tracts of land, or whether she was to hold the same in her own right or during life. The cutting up of a valuable farm in Johnston is involved in the construction. Luce & Waite of Stoughton; Dunwiddie, Golden & Wheeler, and M. M. Phelps of this city, appear in the case, Judge Phelps being for the executor, and the other firms for different heirs. The Bevens family at one time resided in this city.

RAIN WAS A BOON TO TOBACCO.

Three Weeks Had Done Much Damage to Its Growth.

Rock county tobacco was greatly benefited by the rain. It had suffered for three weeks without a drop of moisture and was badly parched. A moderate movement of leaf is reported by the Edgerton Tobacco Reporter. The extreme heat and dust has doubtless prevented much riding during the week and a consequent falling off of sales. The trend of prices remains about as previously quoted. Sales since last report are: N. L. Dahl, thirty cases, '91 at 8 cents; Ole Watneben ten cases '93 at 6 1/2 and 1 cent; C. G. Biederman nineteen cases '93 at 6 and 1 cent; George Helland six cases '92 at 5, 3 and 1 cent; Dan McCarthy fifteen cases '93 at 5 and 1 cent; Douglas Hopkins thirty-one cases '93 at 4 and 1 cent; Thomas Royston forty-five cases '92 at 3 cents; Thomas Royston eighty cases '93 at 3 1/2 cents; Max Leaman ten cases '93 at 5 and 1 cent; Charles Stark thirteen cases at 4 1/2 and 1 cent; F. Smaling twelve cases at 4 1/2 and 1 cent; William Doro seven cases at 4, 2 and 1 cent.

The movement among packers is light. The sale of a carload of '92 by E. C. Hopkins to Rumrill and 160 cases to Sutter Bros. is reported.

THIS is time when we revel in roses (according to poets and such men as those is) when breezes are balmy and skies ever blue, and nothing on earth for a fellow to do, to lie on his back in the shade of a tree, and hark to the hum of the blundersome bee, and it is also a good time to take a drink of

BRIEF BITS OF HUMOR.

An Editor Insulted.
Editors have to put up with all manner of taunts and insults. Not so long ago, at a social gathering, a Dallas lady said to a young man who is connected with a local paper:
"You ought to belong to a church choir."
"But I can't sing. What put the idea of my belonging to a choir into your head?"
"O nothing, except that I was reading the other day that a San Francisco church proposes to introduce harp music into the choir, and there is not much difference, you know, between a harp and a lyre, so I thought I'd just make the suggestion."—Alex Sweet, in Texas Siftings.

As a Tear-Starters.
"Father," said the sweet girl graduate, "do you think it is right to make fun of commencement essays?"
"I do not, my daughter," replied the middle-aged parent, hastily shoving back into the private drawer of his writing-desk a faded and time-stained manuscript tied with a blue ribbon. "The commencement essay, my child, is a thing to weep over and—and—to swear at."—Chicago Tribune.

An Amiable Example.
As she took a seat in the car she inadvertently deposited her heavy market basket on the toes of the passenger next to her. He winched but made no outcry.
"Excuse me," she said. "I ought to have looked what I was about."
"Oh, it's no matter, madam," he replied. "I don't mind a little sociability."—Judge.

WHY HE FAILED.

First Agent—Failed utterly in Philadelphia. Couldn't sell two gross of blotters in the whole city.
Second Agent—What's the matter? Don't they use blotters there?
First Agent—Never. They wait for the page to dry.—Brooklyn Life.

Of a Truth.
Banks (in the newspaper line)—H'mph! Here's a squib credited to the Perkins Junction Banner that I wrote six years ago for the Daily Breed.
Rivers (fellow laborer)—Do you remember everything you have ever written?
"Of course I do."
"What a cave of gloom your memory must be!"—Chicago Tribune.

Worse Than Working.
Proprietor—So you want a vacation, do you? Why, I haven't had one for twenty years.
Clerk—You've been going away for a month or two every summer since I came here.
Proprietor—I know that very well; but I had my wife and six children with me, didn't I?—Boston News.

The Only Cure.
Mr. Norris—I won't hear a word of it! It is too preposterous!
Mrs. Norris—Don't be severe with Dick; you know he has fallen in love.
Mr. Norris (sharply)—Well, can't he fall out again?
Mrs. Norris (with a sigh)—No, I'm afraid; not without getting married.—Brooklyn Life.

His Use.
"I don't see what business a kicker has on earth," said the irritable man.
"O," replied the philosopher, "he is very useful."
"How?"
"He makes you appreciate the people who are good natured."—Washington Star.

A Good Reason.
Brown—Say, I'll give you a sure thing on the third race to-morrow. Play Mudsticker to win.
Green—Thanks! But why don't you play it yourself?
Brown—I can't. I've already lost all the money I can spare this month.—Puck.

Be Thankful.
Dude—I wish I were a mind reader, Miss Ella.
Ella—Why?
Dude—Because then I should know what you think of me.
Ella—Thank your lucky stars that you're not thus gifted.—Truth.

The Bicycle Era.
Father (a few years hence)—Why do you take your bicycle when you are going such a short distance? Why don't you walk?
Daughter (modestly)—Walk? Mercy, no! I don't want to be so conspicuous.—Good News.

A Considerate Employer.
Publisher—You walk lame. Been kicked out much?
Book Agent—Bout forty times.
Publisher (kindly)—Well, leave your sample encyclopedia here, and canvas with this sample Bible until your back gets well.—N. Y. Weekly.

Two of a Kind.
Footpad—Your money or your life! What are you laughing at?
Jinks—Why, I'm a life-insurance agent!
Footpad—Excuse me, sir; I didn't know you were in the profession!—Puck.

A New Joy.
Smithers—Aldine says he's just awakened to the true comforts of married life.
Withers—Yes, his wife left town day before yesterday.—Chicago Record.

HATS AND VEILS.

Piquant Accessories Which Conceal Defects and Magnify Beauty.

A certain marquise who is not above turning an honest penny, or rather son, by giving good counsel to her countrywomen on various subjects connected with the toilet has decided opinions as to the veil, which may interest American as well as Parisian women. After descending on its rise, development and uses in the past she goes on to speak of it in its

GREEN BERRETTA.

modern capacity as "a piquant accessory which conceals imperfections and displays beauty." Her advice is characterized by good taste and is worth remembering: "The veil par excellence is the white one, with black dots. It gives a look of freshness to the complexion and adds to the effect of the eyes. The all white veil is only suitable for a brunette with a clear skin. A plain black veil is not becoming to any one, but a black one, with black dots, is becoming to everybody. Never wear a red, violet or blue veil, as it gives a sickly and unnatural tint to the most beautiful complexion in the world."

The pretty alpine and crush crowned straw hats with wide curled brims are coming into great popularity. They are a relief from the ubiquitous rigidity of the sailor hat and thereby fill a long felt want. The sailor hat is really only suitable for children and young girls, but it has been the only sort of outing headwear, short of caps, provided for women for years past. These new shapes are more dignified and more generally becoming, and it is to be hoped that they have come to stay. They may be trimmed with the severe band and dunlap bow or may be softened in effect by the addition of a chou of ribbon, a bunch of violets or a tuft of black or white cock's feathers.

An illustration is given of a hat having a berretta crown of green straw and a brim of plaited black lace. It is trimmed with black gauze ribbon having moire stripes, which surrounds the crown and forms a knot at the left side of the front, held in place by a jet ornament.

JUDIC CHOLLET.

MUSLIN GOWNS.

They Are All Made Full and Are Lavishly Trimmed.

Striped muslins, gingham and nainsooks have appeared in wonderful profusion this season. Pink, blue lavender and black stripes of varying widths on a white ground are seen everywhere, and a peculiar shade of sea green has also lately been brought out which, in combination with white, looks refreshingly cool. Thin gowns are all made very full and are lavishly trimmed, even if it be only with the same goods. Ribbons and lace are much employed, however, and as an expensive

MUSLIN GOWN.

variety of lace is not required a very pretty gown may be produced at slight cost, at least for the materials. Of course the dressmaker's bill is large whether she does her work well or ill. It is a good plan for everybody to have at least a little knowledge of dressmaking, enough to allow of the venture of making thin summer gowns at home, even if more expensive goods are put into professional hands. To pay \$15 for the making up of materials that cost less than \$5 seems scarcely a reasonable outlay when the purse is only moderately supplied.

The home dressmaker will find that skirt and sleeve patterns are more to be relied upon than corsage patterns unless she has the latter cut specially to measure. If she has not and doubts her ability to adapt one selected from the general catalogue, she may make the skirt and have a regular dressmaker cut and fit the bodice, which she herself can afterward trim to match the skirt. If it is intended that much dressmaking shall be done at home, the easiest way is to go to a good tailor and have a pattern cut to measure. This will give a correct foundation upon which to construct a variety of gowns both for street and evening wear.

It should be borne in mind that, next to a good pattern, a hot flatiron is the dressmaker's best aid to the achievement of a workmanlike result. Seams, hems, facings and buttonholes should be conscientiously pressed as soon as they are finished—not allowed to wait until the garment is all completed. This advice has more particular reference to heavy goods, although muslins will look the better for such treatment.

A picture is given of a green muslin gown trimmed with applications of butter-colored gupure. It has a round skirt and full, round bodice gathered in at the throat and waist. The puffed elbow sleeves, which are finished with a frill, are trimmed with two diagonal bands of gupure, the corsages with two horizontal bands.

SOME WELL KNOWN FACES

President of the Women's Clubs.
Mrs. Ellen M. Henrotin of Chicago, who was recently elected president of the National Federation of Women's Clubs, is well known in the Lake City as one of the most prominent leaders of

the best society and as the wife of Charles Henrotin, the banker and broker and first president of the Chicago Stock Exchange. During the World's Fair Mrs. Henrotin was the acting president of the woman's branch of the World's Congress auxiliary, and her services were of incalculable value.

Kisses for Sale.

Kisses have a market price at Nagymary, in the Hungarian Komitta of Arad. A strange old custom is in use there on St. Joseph's day and a few days following. The young women who have been married within the past twelve months assemble in the market place and offer themselves to be kissed by gentle and simple, Herren and Bauern indifferently, at so much money per kiss. The prices are exceedingly modest, the lowest being four hellers and the highest twenty hellers. These, at least, were the prices, according to the Hungarian reporter, on St. Joseph's day last March 19. There is possibly some feudal interpretation of the eccentric custom, but the reporter does not supply it.

A Royal Love Match.

Louise Fredericke Auguste, the present duchess of Devonshire and wife of the man who is less often remembered as the duke of that name than as the Marquis of Hartington, is a Hanoverian. She looks, however, more like an Englishwoman than like a German, and though she is no longer young, is still handsome. She was the daughter of Count von Alten; and she was considered an unusually beautiful girl when her first husband, the Duke of Manchester, caught a glimpse of her in the opera house at Nice. He promptly fell in love with her, sought an introduction and within a few days proposed and was accepted and married.

SAVED TWO WOMEN,

THOUGH MANY MILES APART.

[SPECIAL TO OUR LADY READERS.]
Many curious and interesting experiences are found in the correspondence of a womanlike Mrs. Pinkham, who for many years ministered to the sufferings of her sex all over the land. Here are two notable cases, one from the Pacific and the other from the Atlantic coast.

The Brooklyn woman is Mrs. Lillie Meyer. Five years ago she began to feel sharp pains in her abdomen, with the bearing-down feeling and pains in her back. She tried doctors and got no relief. A friend told her of Mrs. Pinkham's Compound, and after using it the pain left her, and menstruation now comes without suffering.

The Riverside, Cal., woman is Mrs. J. E. Dewey, who says, "I have used three bottles of your Vegetable Compound for painful menstruations."

"Every month my suffering was terrible, and I was obliged to go to bed. After using the first bottle, my general health was much improved, and now, after using three bottles, all pain has left me, and I am a well woman. Lydia E. Pinkham's Vegetable Compound is as unfailing as the sun." Get it from your druggist.

Catarrh GOLD IN THE HEAD

relieved instantly by one application of Birney's Catarrh Powder

REV. PATRICK CLARKE, Sec'y to the Rt. Rev. Bishop of Columbus, Ohio, writes:
"GENTLEMEN:—I cannot say enough for your Powder. It has cured me of an aggravated attack of catarrh when nothing else could help me. Am indebted to you for it. All my friends to whom I administered samples are quite enthusiastic over it. The good states speak most encouragingly of their use of it in the hospital under their care. I will do anything to speak a good word for the remedy for those who are suffering."
M. E. FORTNORTH, Custodian U. S. Appraiser's Stores, Chicago, writes:
"GENTLEMEN:—I have spent entirely too long a number of years past getting no relief from many so-called cures which I tried, was induced by a friend to try Dr. Birney's Catarrh Powder for my deafness. Have recovered my hearing entirely, so that I can now hear a watch tick in my ear held 18 inches from my ear. I look upon it as a positive cure for deafness and have recommended it to many of my friends and feel sure I have never heard of a case where it has failed to relieve."

Warship Sent to Bluefields.

WASHINGTON, July 20.—The seriousness of the situation on the Mosquito coast, Nicaragua, has caused the issuance of official orders directing the new triple screw cruiser Columbia to proceed as soon as possible for Bluefields.

WITS AT WORK.

"What, give a prize to your son? He persists in doing nothing!" "Well, give him the prize of perseverance, then!"

"Brifkins has graduated from the law school, hasn't he?" "Yes." "Practicing?" "Not yet. He's looking for somebody to practice on."

Judge—If I let you off this time, will you promise not to come back here again? Prisoner—Yes, sir. The fact is, I didn't come voluntarily this time.

"Aw, Bunkins is socially ostracized." "Yes." "Completely an outcast." "Completely. His social status is so low that he couldn't even lend money to a titled foreigner."

"You spoke to them in French, I noticed. Why was that?" "I wanted to discover if he was an American." "And he was?" "Of course, or he'd never have understood my French."

Husband—Our bills for household expenses are as large as ever. I told you to reduce them. Wife—I did. I took from \$10 to \$20 off each one, but the tradesmen acted so about it that I thought you'd better go around and reduce them yourself.

Jinks—I tell you what it is, there is nothing like having lots of friends. Winks—I presume not. Jinks—No, sirree. Just as quick as I lose a job, my friends all rush around hunting a new place for me, so as to save me the trouble of borrowing money from them.

Lady, to little boy—What are you crying for, my little man? Little Boy—My fa-father has bin beat-beatin' me. Lady—Well, don't cry. All fathers have to beat their little boys at times. Little Boy—But my fa-father isn't like other fa-fathers. He's in a brass ba-band and beats the big drum.

County Clerk Wrightson was out fishing one day, and being a little perplexed about the appearance of the sky, asked the old salt at the helm what the day was to be like. "D'nnno. When the Lord had charge of the weather the sailormen could tell sump'n 'bout it once in a while, but since those gol darned newspapers took hold of it I'm dinged if there's any knowin' whether it's goin' to shine or shower."

CHICAGO, July 19.—Chicago bankers and business men have very generally signed a memorial to congress urging speedy action on the tariff.

Big Shops Not to be Reopened.

CHEYENNE, Wyo., July 20.—The ultimatum has gone forth that the railroad shops on the Wyoming and Idaho division of the Union Pacific, which were closed July 2, will not be opened for general repair work until business revives and there is a great demand for motive power. The decision is a great disappointment to hundreds of employees and will paralyze business in all the division towns on the system between Cheyenne and Portland.
